605 v.51

Index to Volume LI

January-December, 1923

A

	Month	Page
Absorption Tests for Clay, Dye	Sept. 15	747
Accuracy Goal in Brass Shop	April 1	247
Acid Dip for Coloring Brass, Seeks to Avoid	Sept. 15	757
Acid, Metal To Resist	Feb. 15	154
Acid Resisting Bronze	Oct. 15	838
Acid Resisting, Leaded Alloys Not Always	March 15	230
Acid Resisting Metal Unique	Jan. 15	47
Acid Resisting Metal, Formula for	March 15	430
Add to Research Fund	Sept. 1	723
Adding Metals to Alloys, Order of	Aug. 1	629
Adds Recording Device to Scleroscope	Feb. 1	122
Adirondack Steel Casting Foundry Corp., Make Castings for Railroads	Aug. 1	602
Adopts Melting Units to Meet Varied Needs	Nov. 1	868
Air Compressor Driven by Synchronous Motor	Aug. 15	686
Air Furnace		
Burning Oil in the	Nov. 1	862
Melts with Oil in	June 1	436
Plan and Sectional View of	Nov. 1	862
Air Furnaces, Refractories for	Feb. 1	111
Air with Oxygen, Enrich	Sept. 15	763
Airplane Motor Castings, Mold Aluminum	Nov. 15	905
Allis-Chalmers Mfg. Co., Annealing Gray Iron	March 1	177
Alloy		
For Frying Pans, Suitable Aluminum	Nov. 1	875
For Valves, Nickel	Aug. 15	657
Formula for Brass Key	May 15	409
Formula for College Campus, Purple	May 1	367
From all Scrap Metal, Want to Make	Jan. 15	71
Nonshrinkable	Oct. 1	785
Nickel Bronze Melted in Cupola	March 15	229
Pattern Metal	April 15	336
Segregation, Seek Causes of	Jan. 15	71
Shrink Holes Caused by Faulty	Jan. 15	71
To Resist Internal Pressure	July 1	544
To Use with Die Casting Machine	Jan. 1	23
Will Resist Oxidation, White Metal	March 15	230
Alloys		
Add Phosphorus to Lead Bearing	Dec. 1	954
Characteristics of Die Casting	Feb. 15	136
Combining Lead with Copper	May 15	409
Compositions of British Aluminum	Nov. 15	905
Copper-Silicon-Aluminum	April 15	331
Eliminating Iron in Brass	April 1	281
How Arsenic Affects	Jan. 15	67
Low Shrinkage	July 1	544
Making Magnesium	Aug. 15	656
Melting Special	July 1	544
Not Always Acid Resisting, Leaded	March 15	230
Of Copper, Aluminum in	Sept. 1	719
Order of Adding Metals to	Aug. 1	629
Properties of	June 15	497
Removing Zinc in	Dec. 1	955
Results of Investigation of	June 15	497
Urges Use of Nickel	Nov. 1	873
Aluminum		
As a Deoxidizer	July 15	571
Causes Pitting, Small Amount	March 15	229
Colors Copper	Oct. 1	785
Cuts the Sand	Jan. 1	22
For Golf Clubs, Coloring	Oct. 15	838
For Parts of Pressure Cookers	Sept. 1	718
Furnace for Melting	March 15	209
How British Cast	Nov. 15	905
Imports from Norway, Large	April 15	337
In Alloys of Copper	Sept. 1	719
Is Injurious to Brass Castings	Dec. 15	993
Not Susceptible to Color Changes	Nov. 1	875
Pouring Temperature	March 15	229
Pouring Temperature of	June 15	505
Presents Melting Hazard, Scrap	March 15	230
Production in the U. S., 1919-1921	June 15	507
Put in Brass Produces Dross	Dec. 1	954
Aluminum Airplane Motor Castings, Mold	Nov. 15	905
Aluminum Alloy for Frying Pans, Suitable	Nov. 1	875
Aluminum Alloys, Compositions of British	Nov. 15	905
Aluminum Alloys, Copper-Silicon	April 15	331
Aluminum Bronze Castings, Hard to Break	Nov. 15	904
Aluminum Bronze, Mold for Bushing of	Feb. 1	97
Aluminum Bronze Presents Porosity Trouble	Nov. 15	903
Aluminum Die Castings	Oct. 15	837
Aluminum Features, Seeks Light on Several	June 15	496
Aluminum Flux, Caution Observed Using	June 15	495
Aluminum Industry Grows	April 1	280
Aluminum Kettles, Rigging Required to Make	Aug. 15	657
Aluminum Melting Fails in Cupola	Sept. 15	757
Aluminum Metal Suitable for Matchplates	May 1	
Aluminum Patterns to Prevent Rust, Coat	Nov. 15	
Aluminum Plates		
Cast in Permanent Molds	Sept.	757
Double Face	June	505
Molding and Casting	June	505
Aluminum Rollers, Cast	Ma	367
Aluminum Sweeper Castings	M 15	209
American Brakeshoe & Foundry Co., Plant Layout and Equipment	v. 1	868
American Ceramic Society	March 1	187
American Coupler, India Considers the	Nov. 1	857
American Electrochemical Society Meeting	Oct. 15	843
American Foundrymen Seek to Maintain Quality	Jan. 1	8
American Foundrymen to Visit Europe	April 15	297
American Foundrymen's Association		
Confers Honorary Membership	Aug. 15	674
Convention, List of Exhibitors	April 15	310
Meeting	May 15	387
Prepares for Convention	April 15	299
To Dispense Fund	Sept. 15	736
American Institute of Mining and Metallurgical Engineers Nominates Officers	Dec. 15	1006
American Society for Heat Treating, Convention	Nov. 1	882
American Society for Testing Materials, Convention	July 15	562
American Society for Testing Materials Index	April 1	274
American View on Bar, Reports	Oct. 1	781
Americans Complete European Tour	Oct. 15	828
Analyses Malleable Iron Gas Contents	Oct. 1	798
Analyses of Long Established Bearing Metals	Nov. 15	898
Analysis		
Makes Preliminary	March 15	216
Of Hard Iron	June 15	497
Propose Iron	Oct. 1	775
Should Mix by	Sept. 15	744
Analyzed, Recommends Having Metal	Oct. 1	785
Anneal, Improves Malleable	Feb. 15	150
Annealing Gray Iron, Effect of	March 1	177
Annealing Malleable Iron from Arc-Electric Furnace	Aug. 15	671
Annealing Oven, Chemical Action in	Feb. 15	150
Annealing Steel	Nov. 15	914
Apparatus, Instructions for Use and Handling Oxygen, Hydrogen and Acetylene Gas	May 1	349
Applies Drop Test to Malleable Wedges	Jan. 1	36
Applies Standard Time System	Dec. 1	947
Apply Time Study to Foundry Work	June 1	443
Apprentice Training, Bill Discusses	July 15	575
Apprentices, Additional Instruction Given	June 1	438
Apprentices, Training Foundry		
Article I	Sept. 1	689
Article II	Sept. 15	737
Apprentices Grows, Demand for	Sept. 1	691
Approve Safety Code for Foundries	Jan. 15	57
Arbors, Green Sand Core	April 15	317
Arc Furnace Operation Flexible	Sept. 1	694
Arcade Malleable Iron Co.—Consolidate Interests	Sept. 15	736
Armature Bushings Show Submerged Pits	Feb. 15	154
Arsenic Affects Alloys, How	Jan. 15	67
Art Bronze Tablets, Casting	May 15	408
Art Work Is Made, Bill Explains How	Aug. 1	582
Art Work on Bronze Towers	Feb. 15	127
Artistic Castings Made in American Sand	Aug. 15	672
Association Engages Expert, Malleable	Nov. 1	887
Association of Iron and Steel Electrical Engineers Meets	Oct. 1	796
Association of Iron and Steel Electrical Engineers	Oct. 15	842
Automatic Brake and Throttle Control, Has	Nov. 15	929
Automatic Burner Control	Dec. 1	968
Automatic Cut-Off Limits Compressor Speed	Sept. 1	723
Automobile Castings	April 1	269
Automobile Cylinder Casting, Air-Cooled	May 1	354
Automobile Engine Cylinder, Casting	April 15	289
Automobile Flywheels, Molding	Nov. 15	923
Automotive Castings, Carbon Content	May 15	414
Automotive Castings, Studies	May 15	414
Award Prize to Chill Car Wheel Rig	May 15	396
Awards Will Stimulate Paper Interest	Aug. 15	674

B

Babbitt Will Not Adhere	July 15	581
Babbitted Linings Become Pitted, Why	Dec. 1	955
Bake Enamel on Stove Castings	Aug. 1	632
Ball Presents Problem, Buoy	Nov. 1	880
Band Saw for Pattern Work, Tries	Oct. 15	845
Base, Sectional View Mold for Column	March 1	193
Bearing Metals, Analyses of Long Established	Nov. 15	898
Bearing Metals, Eliminating Cracking in	July 15	581
Bearing Sleeve, Mold for Motor	Jan. 1	19
Bearings, Bronze Mixture for Motor	Sept. 1	719
Bedplate Casting for Paper Carton Machine	March 1	200
Bell, Cast Large German	June 15	504
Bell Output Decreases	Feb. 15	143
Belt Sander and Grinder Is Motor Driven	March 15	242
Bill Discusses Apprentice Training	July 15	575
Bill Explains How Art Work Is Made	Aug. 1	624
Bill Gets Some Information on Chaplets	Dec. 15	997
Bill Goes Into a Machine Tool Foundry	Aug. 15	675
Bill Has a Word on Cupola Practice—I	April 15	318
Bill Has a Word on Cupola Practice—II	May 1	368
Bill Has a Word on Cupola Practice—III	May 15	419
Bill Has a Word on Cupola Practice—IV	June 1	444
Bill Has a Word on Cupola Practice—V	June 15	502
Bill Has a Word on Cupola Practice—VI	July 1	549
Bill Learns To Make Steel Couplers	Dec. 1	944
Bill Makes Column Bases in Green Sand—I	March 1	193
Bill Makes Column Bases in Green Sand—II	March 15	233
Bill Makes Column Bases in Green Sand—III	April 1	257
Bill Molds a Bronze Furnace Cooler Casting	Oct. 15	830
Bill on Egyptian and Other Pyramids	Nov. 1	876
Bill on Repairing Broken Castings—I	Jan. 15	64
Bill on Repairing Broken Castings—II	Feb. 1	102
Bill on Repairing Broken Castings—III	Feb. 15	144
Bill on the Subject of Favorite Books	Sept. 1	715
Bill Pours 2-Ton Job with ½-Ton Ladle	Nov. 15	920
Bill Questions the Wisdom of Solomon	Jan. 1	31
Bill Saves Time in Molding a Coke Pan	Oct. 1	786
Bill Tells How He Made a Coupling Box	Sept. 15	751
Binder, Effect of Condition of Sand on	Nov. 15	911
Binders, Core	Sept. 15	744
Binders Substituted for Oil, Corn Flower	Aug. 15	667
Black Heart Malleable, Makes	Oct. 15	826
Black Paint for Castings	Sept. 15	744
Blackwood Electric Steel Corp.—Steel Foundry Reflects Growth	Sept. 1	704
Blanket Rate of Charge	Sept. 1	710

	Month	Page
Blast in New Cupola, Preheat	Dec. 15	944
Blast Volume More Important Than Pressure	Aug. 1	639
Blow Holes and Is Hard, Brass Shows	July 1	544
Blower Equipment Needed for Small Cupola	Jan. 1	38
Blower for Different Size Cupolas, Same	Oct. 15	845
Blueprints, Repairs Do Not Conform To	March 15	236
Bond of Sand, Effect of Grain Size on	Aug. 1	609
Bond Strength of Core Compounds, Green	Aug. 15	669
Bond Values in Core Sand	Jan. 15	53
Bonding Substances, Chemical Properties of	Sept. 15	746
Bonding Test, Give Details of	July 1	545
Bonds on Refractoriness of Sand, Effect of	Sept. 15	745
BOOK REVIEW		
Aluminum Repairing	July 15	564
American Society for Testing Materials Tentative Standards	Dec. 1	963
Analysis of Steel	Aug. 1	610
Causes and Prevention of Corrosion	Nov. 15	922
Chemical Resistance of Engineering Materials	Oct. 15	81
Comparison of British and American Foundry Practice	Jan. 1	11
Cost Control for Foundries	Nov. 15	922
Determination of Sulphur in Cast Iron and Steel	Feb. 15	140
Electric Furnace for Iron and Steel	Aug. 1	615
Engineering Nonferrous Metals and Alloys	Dec. 15	983
Foundry Work	Nov. 15	907
Fundamentals of Welding	Nov. 1	887
Introduction to the Study of Metallography and Micrography	Feb. 1	104
Kent's Mechanical Engineers' Handbook	Dec. 1	960
Metallurgy of Iron and Steel	Dec. 1	937
Metals and Their Alloys	April 1	279
Modern Iron Foundry	June 15	481
Oxy-Acetylene Welding and Cutting	Feb. 15	143
Practical Perspective	July 1	548
Self-Taught Mechanical Drawing and Elementary Machine Design	Dec. 1	951
Symbol of Safety	July 1	541
Tested Method of Laboratory Organization	April 15	341
Tested Methods of Non-Ferrous Metallurgical Analysis	April 15	322
Welding Encyclopedia	Dec. 15	1003
Wood Pattern Making	Oct. 1	791
Borer, Builds New Single Spindle	Sept. 1	724
Boring Cans Loaded by Improved Method	May 15	426
Box, Bill Tells How He Made a Coupling	Sept. 15	751
Box End Casting Should Be Made of Steel	March 15	226
Brake and Throttle Control, Has Automatic	Nov. 15	929
Brake, Develops Crane	Jan. 1	44
Brakeshoe Compositions	Feb. 1	111
Brass		
Flows off Metal Inserts, Molten	June 1	464
Is Easy to Machine, Cheap	Oct. 15	838
Mixture for Yellow	Sept. 15	757
Produces Dross, Aluminum Put in	Dec. 1	954
Sea Water Attacks	Dec. 15	993
Seeks to Avoid Acid Dip for Coloring	Sept. 15	757
Brass Alloys, Eliminating Iron in	April 1	281
Brass and Bronze, Casting		
Article I	July 15	578
Article II	Aug. 1	627
Brass Casting		
Desire High Finish	March 1	199
Gating Mold for	Jan. 1	19
Molding and Gating in	June 15	491
Skin Dried, Mold for	March 1	196
Temper of Sand Important in	June 15	491
Brass Castings		
Aluminum Is Injurious to	Dec. 15	993
Cleaning	Aug. 15	636
Color of	March 1	196
Dirt and Color Harmful in	Oct. 1	785
Facing Sand Mixture for	Nov. 15	904
Facings Aid in Cleaning	Jan. 1	23
Finds Hard Spots in	Aug. 1	630
Flour Leaves Clean Skin on	Aug. 15	657
Metal for Small	June 15	496
Pickling	July 15	581
Reasons for Porosity in	June 15	495
To Be Machined, Formula for	May 15	409
Brass Cylinders, Mold Hollow	June 15	491
Brass, Formulas for Coverings in the Melting of	Feb. 15	154
Brass, Formulas, Strong Yellow	Jan. 1	22
Brass Furnace, One-piece Lining in	Aug. 1	640
Brass Furnaces, Discuss Electric	Oct. 15	843
Brass Key Alloy	May 15	409
Brass Mixture Free from Pin Holes	Sept. 1	718
Brass Mixtures, Uses Too Much Lead in	Aug. 15	656
Brass Scrap for Low Pressure Parts, Using	Jan. 15	71
Brass Shop, Accuracy Goal in	April 1	247
Brass Shows Blow Holes and Is Hard	July 1	544
Brass Tablets, Facing Sand for	March 1	196
Brass Turnings, Try Melting Briquetted	Nov. 15	913
Brasswork, Conditioning Used Sand for	March 1	19
Brasswork, Select Sand for		
Article I	Feb. 15	152
Article II	March 1	196
Breaking Scrap, Dynamite Employed for	Nov. 15	919
Brick Lining at Melting Zone Burns Away	June 1	446
Brinell Hardness Tests Annealed Bars	March 1	177
Brinell Hardness Test Chart	April 15	323
Briquetted Brass Turnings, Try Melting	Nov. 15	913
Britain, Foundry Practice in	June 15	497
British		
Begin Research	Sept. 1	703
Cast Aluminum, How	Nov. 15	905
Hold Annual Sessions	July 1	536
Plan Welcome for Foundrymen	March 1	180
Promote Research	Oct. 15	829
Submit Specifications	Aug. 15	679
British Aluminum Alloys, Compositions of	Nov. 15	905
British Cast Iron Research Association	Jan. 1	30
British Cast Iron Research Association	Jan. 15	60
British Cast Iron Research Association	May 15	413
British Centers, End Tour of	Oct. 1	770
British Foundry Exhibition Proposed	Dec. 1	946
British Foundry Sessions, Sets Date for	April 15	342
British Institute of Metals	April 1	285
British Iron Specifications, Discusses	Sept. 15	747
British Molding Machine Hand Operated	Feb. 1	122
British Rollover Unique	July 15	593
British Shop, Melting Iron in a	June 15	475
Broken Castings—III, Bill on Repairing	Feb. 15	144
Bronze, Acid Resisting	Oct. 15	838
Bronze Bushings Is Variegated, Color of	Dec. 1	955
Bronze, Casting Brass and		
Article I	July 15	578
Article II	Aug. 1	627
Bronze Casting, Sand Quality Sought in	Oct. 15	838
Bronze Castings, Hard to Break Aluminum	Nov. 15	904
Bronze Furnace Cooler Casting, Bill Molds a	Oct. 15	830
Bronze Grills, Encounters Porosity in	June 1	464
Bronze Latches Blow	Sept. 15	757
Bronze Melted in Cupola, Alloy of Nickel	March 15	229
Bronze Mixture for Motor Bearings	Sept. 1	719
Bronze Presents Porosity Trouble, Aluminum	Nov. 15	903
Bronze Propeller, Cast Heavy	Nov. 1	879
Bronze Rail Stanchions, Stiff Manganese	Nov. 15	904
Bronze Tablets, Casting Art	May 15	408
Bronze Towers Guard Avenue	Feb. 15	127
Bronze Towers, Making Mold for	Feb. 15	127
Bronzes, Iron in Ancient	Nov. 15	898
Buffalo Forge Co.—Woodworking Machine	Dec. 1	969
Build Large Electric Furnace	June 1	461
Build Small Jar Squeeze Machine	July 1	555
Builds New Induction Furnace	March 15	227
Builds New Single Spindle Borer	Sept. 1	724
Builds New West Coast Foundry	Jan. 15	61
Buoy Ball Presents Problem	Nov. 1	880
Burden Charge, Methods for Determining	Sept. 1	710
Burner Control, Automatic	Dec. 1	968
Burner Is Easy To Make, Preheater	April 15	342
Burner Venturi Tube	Jan. 1	44
Burning Oil in the Air Furnace	Nov. 1	862
Burns Too Much Carbon Out of Iron	June 1	456
Bushing Cores, Self-centering	Jan. 1	19
Bushing Sticks, Formula for	Jan. 15	71
Bushings, Green Sand Cores in	Oct. 15	833
Bushings Is Variegated, Color of Bronze	Dec. 1	955
Bushings		
Methods of Molding	Jan. 1	19
Molding Flanged	Feb. 1	97
Production of Large	May 1	363
Show Submerged Pits, Armature	Feb. 15	154
By-Product Gas, Use of	Aug. 1	615

January-December, 1923

Nos. 459 and 460, Jan. 1. Microscopy of Cast Iron.
Nos. 461 and 462, Jan. 15. Microscopy of Cast Iron.
Nos. 463 and 464, Feb. 1. Microscopy of Cast Iron.
Nos. 465 and 466, Feb. 15. Microscopy of Cast Iron.
Nos. 467 and 468, March 1. Microscopy of Cast Iron.
Nos. 469 and 470, March 15. Safety Code for Foundry Workers.
Nos. 471 and 472, April 1. Safety Code for Foundry Workers.
Nos. 473 and 474, April 15. Safety Code for Foundry Workers.
Nos. 475 and 476, May 1. Safety Code for Foundry Workers.
Nos. 477 and 478, May 15. Safety Code for Foundry Workers.
Nos. 479 and 480, June 1. Safety Code for Foundry Workers.
Nos. 481 and 482, June 15. Formula for Finding Tapers.
No. 483, July 1. Aluminum-Zinc-Copper Alloys.
No. 484, July 1. Copper-Zinc-Tin Alloy.
Nos. 485 and 486, July 15. Alloys of Aluminum.
Nos. 487 and 488, Aug. 1. Analysis of Limestone.
Nos. 489 and 490, Aug. 15. Analysis of Cupola Slags.
Nos. 490 and 491, Sept. 1. Analysis of Cupola Slags.
Nos. 493 and 494, Sept. 15. Specifications for Brass Ingot Metal.
Nos. 495 and 496, Oct. 1. Specifications for Brass Ingot Metal.
Nos. 497 and 498, Oct. 15. Contraction of Light Aluminum Alloys.
Nos. 499 and 500, Nov. 1. Contraction of Light Aluminum Alloys.
Nos. 501 and 502, Nov. 15. Contraction of Light Aluminum Alloys.
Nos. 503 and 504, Dec. 1. Contraction of Light Aluminum Alloys.
Nos. 505 and 506, Dec. 15. Contraction of Light Aluminum Alloys.
